

## Full Case Program Item List

Items in this list will have a 10% discount applied to the regular case price only for orders being delivered or picked up between Aug 1 and Oct 31, 2017. You will see this 10% discount on the online site when you add a case of one of the 300 program items (after Aug specials have been uploaded - by July 31). Also, **when there is a higher discount offered already** (ie. 15% in the catalogue for a given item) then you will get that higher discount **only**. You will **not** get an additional 10% on top of this or any other discounts. **When there is a lower discount offered already** (ie. 5% in the catalogue) you will get the 10% discount **only**. **When splitting a case** between multiple people, you may add the singles to each person's order to total a case and you will get a 10% discount on those singles on the final ONFC invoices (won't show online). The total singles must equal/be in increments of the case quantity size.
